

4D v16.2 Release Notes

September 5th, 2017

Bugs Fixed List

<http://bugs.4d.fr/fixedbugslist?Version=16.2>

List of the bugs fixed in previous versions:

- <http://bugs.4d.fr/fixedbugslist?Version=16.1>
- <http://bugs.4d.fr/fixedbugslist?Version=16>

Library Update

Xerces: Upgrade to version **3.1.4** (The open source library used internally to manage XML)

XML commands are now case sensitive

For a better XML compliance, the « DOM Count XML elements » and « DOM Get XML element » commands are now case sensitive. A new selector has been added to **XML SET OPTIONS** to restore the previous behaviour if needed. More information in the [documentation](#).

XML external entity resolution

The resolution of external file references used in XML entities is disabled by default for both DOM and SAX XML parser to enhance security. In case you need to allow external file references execution (as in previous versions), use the following syntax:

XML SET OPTIONS ("";XML external entity resolution;XML enabled)
